

## PIPE REPAIRS

### Super Wrap

A moisture curing repair bandage, which has been especially developed for fast permanent repairs to pipes.

Super Wrap has been designed to repair cracks, leaks, fractures, casting and corrosion porosity in metals (ferrous and non-ferrous), plastics, concrete, asbestos clad piping carrying water, oil, steam, most gases and solvents.

- Rapid cure - 20 minutes
- Withstands high pressures
- Excellent chemical resistance

### High Pressure Power Strap

Specially designed as an all-round leak stopper. This innovative product requires no special tools and is capable of sealing leaks even under pressure.

- Withstands temperatures from 40°C to +120°C
- Excellent chemical resistance
- Stops leaks instantly
