

E6

## Technical data

### JURA standard features

Variable brewing chamber, from 5 g to 16 g	■
Pulse extraction process (P.E.P.®)	■
Hot water function	■
Cappuccino frother	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma <sup>G3</sup> grinder	■
Intelligent Water System (I.W.S.®) with CLARIS Smart filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Integrated rinsing, cleaning and descaling programme	■
Adjustable water hardness	■

### Specific advantages

Cappuccino at the touch of a button	using dial control
Wireless ready	■
Intelligent preheating	■

### Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Programmable coffee strength	8 levels
Coffee strength can be adjusted for each preparation	■
Programmable brewing temperature	2 levels
Programmable hot water temperature	3 levels
TFT colour display	■
Programmable switch-off time	■
Maintenance status display	■

### Design and materials

Height-adjustable coffee spout	65 – 111 mm
Height-adjustable hot water spout	67 – 113 mm
Connector System®	■

### Accessories

Stainless steel vacuum milk container	optional
Cup warmer	optional
Cool Control	optional

### In figures

Water tank capacity	1.9 l
Coffee grounds container (servings)	approx. 16
Bean container with aroma preservation cover	280 g
Cable length	approx. 1.1 m
Voltage	230 V AC
Power	1450 W
Energy consumption with E.S.M.®	ca. 6 Wh
Stand-by power	0 W
Weight	9.8 kg
Dimensions (W x H x D)	28 x 35.1 x 43.9 cm
Colour	Platinum

Hygiene standards

ID 000027526

### The benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- Automatic switchover from milk to milk foam makes it easier than ever to create trend specialities
- The Intelligent Water System (I.W.S.®) automatically detects the filter while the CLARIS Smart ensures perfect water quality
- Sophistication meets functionality with the elegant design and front access to water tank, bean container and all control elements

E6 from JURA  
A world first P.E.P.®: Pulse extraction process produces the perfect espresso

# E6

## A world first P.E.P.®: Pulse extraction process

JURA's new E line is revolutionising the enjoyment of coffee in every aspect. The espresso brewing process has been 100% perfected. The Pulse Extraction Process (P.E.P.®) is the only process of its kind in the world. It optimises the extraction time and guarantees the very best aroma even for short speciality coffees. CLARIS Smart provides water of perfect quality for the best possible flavour. Filter usage has never been easier because the Intelligent Water System (I.W.S.®) automatically detects filter presence. Buttons on the front of the machine and a modern TFT display make operation incredibly simple. And the integrated maintenance programmes and new interchangeable milk spout ensure maximum hygiene.

### A world first: P.E.P.® for espressi of outstanding barista quality

The secret of exceptional coffee lies in the preparation. JURA has 100% perfected the espresso brewing process, allowing the E6 to make speciality coffees to professional barista standard. The Pulse Extraction Process (P.E.P.®) developed by JURA optimises the extraction time. To make a short espresso, it forces the hot water through the ground coffee at short intervals. This process allows the flavours of the coffee to fully develop. With eight different intensity levels, coffee lovers can customise their coffee just the way they like it.

### Intelligent Water System for automatic filter detection

CLARIS water filters supply perfect water quality for the best possible flavour. They also protect the coffee machine against limescale and remove substances that could impair flavour and aroma (such as heavy metals or chlorine) from the water. To make maximum use of the filter and its capacity, JURA developed the Intelligent Water System (I.W.S.®). The filter cartridge and coffee machine are wirelessly linked by RFID technology. The filter is detected automatically. Using the filter has never been easier or more reliable.

### JURA is setting new standards in very simple operation

For those who like to make their favourite coffee quickly, the E6 is ideal. The buttons for the espresso, coffee, cappuccino and milk foam functions are all positioned on the front for maximum convenience. The E6 can even prepare two espressi or coffees at the same time. Thanks to the modern TFT colour display, operating the machine is self-explanatory.

### Total hygiene

Maintaining the modern automatic coffee machine is just as simple as preparing tempting speciality coffees. The integrated rinsing and cleaning programmes can be started at the touch of a button to keep the machine impeccably hygienic. Now the dishwasher-safe milk spout can be replaced in a flash. Total hygiene and the perfect milk foam are guaranteed at all times.
